

DISTRICT 11B1 – PEDIA VISION DEBUT

In the District's debut of its new Pedia Vision Screening instrument our District's Coordinator for Kidsight Lion Larry France demonstrated how to use the system at Generation Today in Dexter, Michigan. In attendance were District Governor Barb Treichel, Second Vice DG Richard Dettling, IPDG Terry Walters, PDG Roberta Sexton, Newsletter Editor Barry Allen, Youth Exchange Chair Peggy Allen, Lion Richard Ulrich President of the Dexter Lions, Lions Charles Eddlemon, Lion Bob Sexton, Lion Christopher West. Visiting Lions from our neighboring District 11-B2 were their Kidsight Coordinator Lion William Kowalski and Lion Frank Murray President of the Kalamazoo Lions Club.

The new Pedia Vision Screening camera was purchased through the tireless effort of our Project Coordinator Larry France and the generosity of a grant from Michigan Braille Transcribing Fund and the contributions of the clubs of District 11-B1. Some of the comments of the users were "can it be this easy" and "what a difference from using the old equipment". Also attending the event with coverage for the media was Erica McClain of the Heritage News Group which is operating with eight newspapers.

Our thanks to the Generations Today care center of Dexter for the use of their facility and to the four year olds who were ideal helpers in making this a success. In twenty three screening a determination was made of one suggested referral recommended.
